

PRESS RELEASE

**Christmas special,  
Creative Provence is on [www.provence-store.com](http://www.provence-store.com)**

**www.provence-store.com brings together artists and artisans who live and work in Provence.** They were selected for the quality of their work. The quest for authenticity and openness to creativity are the two key values which made it possible to select our first artists and craftsmen; a choice that will be expanded over the months. Their works and products can be delivered anywhere in Europe, North America, the Middle East, and Asia.

**New Artist on [www.provence-store.com](http://www.provence-store.com): Stéphane VENEKAS, from Avignon**

Obvious passion for the aircraft, striking image capture, sensation of speed: the works of Stéphane Venekas are very "trendy". They suggest an almost unreal idealization drawing its source from vertical cities such as Hong Kong, New York or Dubai and a timeless vision of a constantly changing world.

His work is expressed by printing on aluminum. Ultra glossy finish in 2mm acrylic glass or epoxy resin. Wooden frame.

**Lionel BORLA's 'Ipadrawing' collection: Art is accessible**

Lionel Borla works in Marseille. Its figurative style is pleasantly stylized. We recognize his works by the slender silhouettes, which inhabit his works. They are so many symbols of the human spirit that travel between landscapes and architectures and draw the audience into a world of color and harmony. The music, often present, gives rhythm to the paintings. For Christmas 2021, he gave us the pleasure of releasing an "iPdrawings" collection for only 160 €. (Here, Fauvist pine forest)
